BORDEAUX. JARDIN PUBLIC AVEC LE LAC. Un des coins les plus pittoresques et des plus fréquentés du Jardin public. Le rendez-vous élégant et la promenade habituelle des Bordelais.

Dear Miss,

I am so pleased this present picture taken in our public garden of Bordeaux; - unfortunately it is not the scene in the region of the north near Verdun, where they listen the gunpowder every day or night! - I suppose that all the north-American must be very busy now about the approach of the Presidential - Election! And we all in France and in the whole Europe we are occupied very much about it!

Best wishes and kind regards from
your truly
R. Tuck
